REMARKS BY HEAD OF BNN

Assalamu' alaikum Warahmatullahi Wabarakatuh. Greetings of Peace to us all

Praise to God Almighty for His grace, blessings and guidance in the completion of the third edition of this infographic book on Indonesia Drugs Report (IDR) of the year 2021, despite various limitations in data collection due to the current state oof the country, still being hit by Covid 19.

This IDR infographic book of 2021 is the third edition of a publication and is easily to be read as a refinement of the first and second edition. It is more attractively arranged for data users to better understand the data presented.

The substance of the IDR third edition infographic book of 2021 is

to present various data and information related to the results of the implementation of the Indonesian Government's tasks in carrying out the Prevention of Drug Abuse and Illicit Trafficking in Drugs (P4GN) as well as data on results of researches carried out by BNN in collaboration with several universities, such as Bhayangkara University, Jakarta Raya, STIS Polytechnic Statistics, Jakarta and the Faculty of Social and Political Sciences, Padjadjaran University.

The publication of the third edition of IDR infographic book of 2021 serves as an important reference for various parties in handling drug problems in Indonesia, which is increasingly worrying in the midst of countries that are still facing the Covid-19 Pandemic. Therefore, adequate P4GN data and information are needed for P4GN efforts in Indonesia.

Hopefully, the third edition of the 2021 IDR infographic book can provide very valuable information for data users and become a source of information for all parties and the public.

We would like to thank all parties concerned that have provided support and assistance in the presentation of the third edition of the IDR infopragphic book of the year 2021.

We will greatly appreciate criticism and suggestions for the improvement of the third edition IDR infographic book of 2021 in the future.

Thank you. Wassalamu' alaikum Warahmatullahi Wabarakatuh.

Jakarta, August 2021 Head of National Narcotics Board,

Dr. Petrus R. Golose

PREFACE

Let us offer praise and gratitude to the presence of God Almighty for the abundance of His grace and gifts, so that the preparation of the third edition of the Indonesia Drugs Report (IDR) Infographics book in 2021 has been completed, although with various limitations in data collection due to current state conditions still hit by the Covid-19 pandemic.

The preparation of the third edition of the 2021 IDR Infographic book was carried out in order to provide information related to the implementation of the task of Prevention and Eradication of Drug Abuse and Illicit Trafficking (P4GN) in Indonesia within a year, as material in the preparation of programs and policies for overcoming drug problems in Indonesia and external reporting country.

The data presented in the third edition of the 2021 IDR Infographic book are as follows: the results of research in the framework of P4GN which consists of a study of the design of an active defense strategy in preventing illicit drug trafficking, a study of the P4GN index, a study of the P4GN action plan partnership model based on community empowerment, categories and indicators of drug-prone areas, number of land conversions and professional transfers in vulnerable areas in rural areas, distribution of urine tests, number of activists, anti-drug volunteers and recovery agents, number of Information Communication and Education (KIE) activities, the number of former addicts who have participated in the post-rehabilitation program, the number of cases of people with AIDS by province, the number of cases of people with AIDS based on risk factors, distribution of cases, suspects and evidence of drug crimes, assets resulting from drug crimes that have been confiscated, distribution of Indonesian citizens (WNI) who are involved in drug crimes outside country, the distribution of Foreign Citizens (WNA) involved in drug crimes in Indonesia, drug smuggling routes by land and sea, the price of drugs found in the Indonesian market, the number of test results for narcotics, psychotropic and addictive substances and New Psychoactive Substances (NPS).

To all parties who have participated by taking the time, thought and energy to assist in the preparation of this third edition of the IDR 2021 Infographics book, we express our gratitude and highest appreciation.

We realize that there are still shortcomings in this book, for that constructive criticism and suggestions for the improvement of this book are highly expected to further improve the quality of the following year's book.

Jakarta, August 2021

DEFINITIONS

Defense strategy	: an active strategy to minimize common vulnerability to neutralize the opponents attack
Strategic	: Explain the beneficial effect or influence on a particular goal related to or based on strategy.
P4GN	: The prevention and eradication of drug abuse and illicit trafficking in narcotics, a strengthening effort by inviting the community to help and support BNN in the effort to break the chain of illicit trafficking in narcotics.
P4GN National	
Action Plan	: A program in the prevention, eradication, abuse and illicit trafficking in narcotics.
ТАТ	: Integrated Assesment Team, consisting of physicians, and law enforcement determined by the local leader of the work unit on the basis of head of BNN decision, province BNN, city/district BNN
LKIP	: Report on the performances of government agency, a form of accountability that contains information on achievements and obstacles in the implementation of the work plan.
Handycraft	: an art activity that focuses on hand skill and the function of processing raw material that is frequently found in the environment that not only becomes valuable in use, but has also aesthetic value.
Volunteer	: people who do things voluntarily, not obliged or forced.
Activist	: people who generate activity, enthusiast, excitement, etc.
Recovery Agent	: people or a community member as a partner of BNN Province, BNN District/City, who lives in the location of a post rehabilitation client who cares for drug problems, is actively involved in community activities, and has been trained as a recovery agent.
Change/Transfer	
Profession	: Transfer or change of work.
Narkotics	: A substance or drug medicine that is plant based or not, either synthetic or semi- syntethic, that can be decrease or chane consciousness, loss of pain and is able to cause dependency.
Psychotropic	
Substance	: A substance or medicine derived from plant or no plant, either natural or synthetic but not a narcotic, has psycho-active properties through a selective influence on the change in mental activities and behavior.
AIDS	: Symptoms and infection/syndrome that damages human immune system from HIV virus infection.
Prevalence	: is the proportion of the population that has certain characteristics in a certain period of time.
IDU	: Injecting Drug User, a person taking drugs by method of injection
Napza	: Narcotics, psychotropic substance, other addictive substances are dangerous substances that influence mental or psychological condition of a person, in the mind, behavior or feeling. It's side effect causes addiction or dependency.
Heterosexual	: a romantic attraction or sexual attraction or habit between persons of different gender.
Homosexual	: a sexual attraction, disorientation towards the sexual partner, a tendency to have sexual relation with a person of the same gender.
Bisexual	: a sexual orientation, with a character for esthetic attraction, romantic love, and sexual desire towards males and females.
Prenatal	
Transmission	: adalah penularan penyakit dari ibu ke bayi selama kehamilan, kelahiran, atau menyusui.

P4GN Survey

STUDY ON THE DESIGN OF ACTIVE DEFENSE STRATEGY RELATED TO THE PREVENTION OF ILLICIT DRUG TRAFFICKING IN 2020

P4GN INDEX IN 2020

MODEL OF PARTNERSHIP IN THE P4GN ACTION PLAN BASED ON COMMUNITY EMPOWERMENT IN 2020

STUDY ON THE ACTIVE DEFENSE STRATEGIC DESIGN IN THE PREVENTION AND ILLICIT DRUG TRAFFICKING IN 2020

Findings and Analyses

DEFINITION OF ACTIVE DEFENSE

Active Defense Strategy is a strategy to minimize common vulnerability in order to neutralize the opponent's attack. Active Defense Strategy is a strategy for strengthening the defense capacity and self defense in order to detect, deter, intercept, dampen, fight back and revitalize oneself from the impact of existing, potential threats, that may come and may already has brought an impact in the whole arena and vulnerable area.

STRATEGIC ENVIRONMENT (EXTERNAL AND INTERNAL)

External

- a) Allegations of narcotic transnational crime syndicates uncovered from Myanmar from a report about Sam Gor Cartel
- b) China's negligence to regulate wild pharmacies and compromise narcotic issue
- c) Regional architecture has an ambiguous function the ASEAN.

Internal

- a) The threat of the synthetic narcotics wave in Indonesia
- b) The problem of poverty at the borders of the state
- c) The blunder made by the punishment regime (correctional & rehabilitation)
- d) Young people (teenagers) do not get serious attention from P4GN intervention
- e) Insularity of narcotics research.

INSTITUTIONAL CONDITION OF BNN (EXTERNAL AND INTERNAL)

External BNN

- a) The spirit of prevention in law enforcement has not become mainstream
- b) Limitation in P4GN performance among ministries, institutions and regional setting
- c) Low popularity in the community's mindset for prevention

Internal BNN

- a) Problematic connection between the outside and performance achievement
- b) Lack of qualified human resources, in particular about narcotics
- c) The problem of community approach
- d) The importance of upscaling BNN research

STUDY ON THE STRATEGIC DESIGN OF ACTIVE DEFENSE IN THE PREVENTION OF ILLICIT DRUG TRAFFICKING IN 2020

 \cap

Recommendation...

Q

Theory of change:

- a) Diplomacy oriented on development of anti narcotics regime
- b) Active strategic defense through implementation of holistic prevent trafficking (SPACE)
- c) Resecuritization of "trafficking" from the "prevention" perspective
- d) Suggest "zero prevalence" achievement of the target
- e) Addiction as the base of intervention for the community
- f) Evidence-based and science based policy design

STRATEGIC RECOMMENDATION

- Concentric circle of Indonesia anti narcotic diplomacy
- Internal regionalisation and capitalization program
- Support after punishment
- Community resillience
- Human interest intervention
- Regional data-driven interdiction
- Narcotics certification with corporate industry model
- Policy research excellence

PRACTICAL RECOMMENDATION

- Guarding the active defense mindset in the revision of the narcotics law
- Knowledge on the regulation of border crossing
- Technical and assistance guidelines for stakeholders of P4GN
- Alternative solution for P4GN financing in the region
- Harm reduction for KIE approach
- Uniting the perception in the prevention of TAT function
- Maximum security prison for drug dealers
- Big data infrastructure and crowd sourcing for cross stakeholders
- Learning Management System (LMS)
- Rebranding media persona to active prevention and resillience

INDEX P4GNIN 2020

NATIONAL INDEX 53.14

National index of P4GN of 53.14 or if assumed there are 100 incidents of drug abuse and illicit trafficking in narcotics in the year 2020, 53 incidents were handled by BNN.

P4GN index classification

classified as **Less Effective,** and 44.12% classified **Quite Effective**

55.88% of provinces are

IP4GN index in 2020 is

classified : **Ouite Effective**

Notes

P4GN Index classified as **less effective** if index value under 40, means from 100 P4GN activity incident, P4GN performance under 40% which is effective. For **quite effective** if index P4GN value between 40%-60%, **effective** if index P4GN value between 60%-80% and **Very Effective** if index P4GN value higher than 80%.

MODEL OF PARTNERSHIP IN THE P4GN ACTION PLAN Based on community empowerment in 2020

The model of synergistic partnership in the P4GN action plan is based on community empowerment is a synthesis of the mapping of strategic actor in the implementation of P4GN, that is includes the policies in the scope of management and institutional relationship across services. This model is based on 4 main dimensions, i.e:

3

Δ

State institution innovation in implementing their task

Develop the state institutional capacity in catching the various opportunities of their conditional aspects (politics, economy, social, culture, defense and security)

Improve capacity in the making of policy decisions in the midst of limitations and obstacles

Prepared to take and measure the risks encountered.

The four dimensions above can be divided into sub dimensions, namely, review on the support and legimitation of P4GN Action Plan, alignment of understanding on the strategic substance of P4GN Action Plan by all related services, review on the pattern of existing budget of the P4GN programs, competence improvement of the network of implementation of P4GN actors.

SURVEY RESULTS OF PREVENTION AND ERADICATION OF DRUG ABUSE AND ILLICIT TRAFFICKING (P4GN) IN THE YEAR 2020

A. SURVEY ON THE STRATEGY DESIGN OF ACTIVE DEFENSE IN THE PREVENTION OF ILLICIT DRUG TRAFFICKING IN 2020

1. Survey Goals and Objectives of the Active Defense Strategy Design

No.	Survey Objectives	No.	Four Big Goals of the Research
1.	Prevent the entry of drug supplies from abroad and eradicate the production and circulation of drugs in the country	1.	Collect the latest knowledge and research on drug issues that are relevant to the prevention efforts referred to in Active Defense
2.	2. Maximize the synergy of cooperation with other parties inside the country and abroad through an integrated interdiction		Defining the strategic environment and contemporary security policy challenges related to narcotic threats, both from abroad and inside the country
	system	3.	Take an inventory of problems in the field and indentify their cases in the intervention of corrective policies
		4.	Formulate strategic policy outlines (<i>outlook</i>) as well as practical policy suggestions related to the threat of narcotics

Table 1.1. Survey Goals and Objectives of the Active Defense Strategy Design

Source: Survey on the Strategy Design of Active Defense in the Prevention of Illicit Drug Trafficking in 2020 BNN-Bhayangkara University, 2021

2. Recommendations of the Survey Results for Active Defense Design Strategy

 Tabel 1.2.
 Recommendations of the Survey Results for Active Defense Design Strategy

No.	Recommendations of the Survey Results	Remarks
1.	<i>The Rebranding</i> of BNN's media persona to a more preventive direction, in particular by actively campaigning for the idea of active resilience and defense or SPACE (Active Defense strategy to prevent circulation).	
	Many researches show that the most dominant <i>help seeking</i> among young adolescents who experience mental and life problems is by <i>venting</i> to friends and peers, the majoriy of whom are unprofessional, do not have the expertise, and tend to provide problematic solutions.	

No.	Recommendations of the Survey Results	Remarks
2.	The work unit that handles communication, information and education (CIE) programs needs to evaluate the biases of "healthy people" and "good citizens" that make the content tend to be normative. For this reason, these units need to design their programs according to a human-centered perspective (a model of <i>neuro-develop-mental learning</i> addiction) along with measurable metrics that can be monitored <i>in real time</i> .	
3.	BNN needs to start budgeting and building Big Data infrastructure, and socialize it to other K/L/D to participate in filling out the database according to their perspective outputs, and work achievements as stipulated in the Presidential Instruction No. 2/2020 on RAN P4GN.	
4.	BNN needs to invest in the development of <i>e-learning</i> content (and not just YouTube videos) to provide up-to-date understanding of drugs in a more systematic way. The content can be differentiated according to the audience: officials/apparatus, community, or high school/university students. BNN can also involve universities to build a platform of Learning Management System for <i>e-learning</i> .	
5.	Continuing no. 4, BNN is recommended to immediately compile practical guidelines, even technical assistance to agencies and apparatus in the regions to formulate programs, budgets, and implementation of P4GN programs in their regions. This effort can be carried out simultaneously offline and with <i>e-learning</i> content guidelines that can be accessed at any time and from anywhere.	
6.	The problem of financing P4GN in the region is often constrained, apart from the deficit of the regional head's <i>good will</i> and the limitations of APBD (Region's Budget). This study recommends BNN to explore the possibility of utilizing the Deconcentration/Assistance Task Fund and the Special Allocation Fund as stipulated in Law No. 23/2014 concerning Regional Government as legal channels for financing P4GN in the region. In the view of financial technocracy, and as a vertical institution (based on the Narcotics Law) BNN can develop these two forms of funds as an effort to make the P4GN program a success in the region.	

Recommendations of the Survey Result	Remarks
BNN needs to propose a review on the Cross-Border Identity Card (KLB) which is suspected to be frequently used to smuggle narcotics, especially at the land border posts. Placement of <i>surveillance cameras</i> at border posts that are connected to BNN <i>situation room</i> can also be considered.	
To prevent incidents that further confirm the "school of crime" theory, BNN needs to propose and oversee the correctional policy at the Directorate General of Correction, Ministry of Law and Human Rights to include detainees and convicts suspected and accused of being dealers and/or being part of the cartel to maximum security prisons separated from other prisoners.	
Regarding the Integrated Assessment Team (TAT) which often causes controversy due to the many approaches that are criminal centric rather than rehabilitation centric, BNN needs to start considering to explicitly put the spirit of prevention and rehabilitation as contained in the Narcoics Law and SEMA 4/2020. This is expected to reduce the ambiguity that is often a source of controversy among law enforcement officials in determining the outcome of the assessment.	
In an effort to revise the Narcotics Law, this study recommends guarding several issues, including the international and strategic <i>mindset</i> of the formulation, prevention orientation, standardization of rehabilitation, strict definition for abusers/traffickers/smugglers/syndicates, coordination between region and center, involvement of the international scientific world disciplines (psychological, social and medical), intra- and inter- K/L/D relationship, regional financing strategies, and program imperatives based on measurable results. This study also recommends incorporating the term 'active resilience and defense' into the new law so that the <i>mindset</i> and programs it carries can last a long time and are relatively consistent with institutional dynamics.	
	BNN needs to propose a review on the Cross-Border Identity Card (KLB) which is suspected to be frequently used to smuggle narcotics, especially at the land border posts. Placement of surveillance cameras at border posts that are connected to BNN situation room can also be considered. To prevent incidents that further confirm the "school of crime" theory, BNN needs to propose and oversee the correctional policy at the Directorate General of Correction, Ministry of Law and Human Rights to include detainees and convicts suspected and accused of being dealers and/or being part of the cartel to maximum security prisons separated from other prisoners. 3. Recommendations for the Study Results of the Community Empowerment-Based Partnership Model for P4GN Action Plan Development

abel 1	
No.	Recommendations for the Study Results
1. Reviewing the data <i>baseline</i> management, especially regarding the target groups of P4GN's programs. For example, using data from the National Team for the Acceleration of Poverty Reduction that can be done by dimensional response to explorit programs and the second secon	
	directing regions to submit requests for assistance by special national and regional teams such as the Development
	Acceleration Team in the Province. Utilization of data

network systems through formal and informal partnerships. This network system can be used to place P4GN issues on the priority ladder in the RPLMD, so that a solution on the complaints about budget polemics regarding P4GN collaborative activities can be found by involving the Regional Government Budget Team in accordance with the Transparency of Regional Government Budget Management as stipulated in Law No. 14 of 2008 about the Openness of Public Information - in exploring the possibility of crossbudgeting and in creating a special P4GN budget for items in the region. This can also open up opportunities for funding collaboration with P4GN activists in the realm of community institutions. 2. Improve policy-making capacity through the development of a prototype 'policy capacity coaching center' (Widianingsih, Riswanda, Patmisari, 2018) per province. The purpose is to increase decision-making capacity of Regional Heads, Regional Secretaries and key decision-making actors in the region in organizing data for accurate reference to baseline data, such as determining target beneficiaries of P4GN programs in the region through the use of selected data. The capacity of regional planners (echelon 3) is generally not at the strategic level or program designer. Heads of the OPD Division should be directed to explore the needs of the P4GN program supporters and the evaluation tools for implementing the program to be adjusted to the characteristics of their respective fields. The second recommendation can be operationalized by developing cooperation between BNN and the Regional Government through the Provincial BNN and/or Regency/City BNN, so that through the program of the *policy capacity* coaching centre or another similar capacity local governments can synergize with BNN in the implementation of P4GN National Action Plan, and improve its achievement performance.

Remarks

trict and City Plnners select key themes based on evidence t can be used to support P4GN. Thus the characteristics of al governments that have been acting as an executor of otegic programs directed by the Ministry of Home Affairs be upgraded to provide creative proposals for RAD P4GN djusting topography, demographics and local wisdom of h province, district, city and village –geospatial-based	
a integration. Sectoral-ego barriers in the formation of an egrated P4GN Team in the region can turn into aplementing each other's main duties and functions of ir respective services.	
e third Recommendation is also the basis for both BNN and al governments to evaluate and develop cooperation with ited parties that is based on the level of cooperation, rting from initial, temporary or permanent cooperation. ermanent partnership is developed for routine activities have a direct impact on the achievement of P4GN's formance targets.	
implementation of activities can also be carried out by izing various available <i>platforms</i> , both offline and online, ing into account the effectiveness of achieving its goals.	
nduct <i>re-profiling</i> of the P4GN target groups, such as the uping of abusers, not only based on professional groups, acational backgrounds, age and gender classifications, etc. also P4GN program interventions in the region based on exploration of casuistic academic studies. The <i>by-name-</i> <i>address profiling</i> base can be done by providing an egrated management information system up to the RT/RW el (Neighbourhood Association/Neighbourhood mmunity), meaning that environmental heads at RW/RT el, are given training and llimited access to complete the GN target group profiling. For example, the initiation of rt-based social intervention studies based on a religious proach can complement the annual prevalence survey.	
	a integration. Sectoral-ego barriers in the formation of an grated P4GN Team in the region can turn into plementing each other's main duties and functions of r respective services. third Recommendation is also the basis for both BNN and I governments to evaluate and develop cooperation with ted parties that is based on the level of cooperation, ting from initial, temporary or permanent cooperation. ermanent partnership is developed for routine activities ave a direct impact on the achievement of P4GN's ormance targets. implementation of activities can also be carried out by zing various available <i>platforms</i> , both offline and online, ng into account the effectiveness of achieving its goals. duct <i>re-profiling</i> of the P4GN target groups, such as the uping of abusers, not only based on professional groups, cational backgrounds, age and gender classifications, etc. also P4GN program interventions in the region based on exploration of casuistic academic studies. The <i>by-name- taddress profiling</i> base can be done by providing an grated management information system up to the RT/RW I (Neighbourhood Association/Neighbourhood munity), meaning that environmental heads at RW/RT I, are given training and llimited access to complete the N target group profiling. 1. Research Design and Data Resource

Table 1.8. Research Design and Data Source

No.	Research Design	Data Source
1.	This study uses a descriptive research design using quantitative data on the results of P4GN's performance carried out by BNN and BNNP. The quantitative data was collected using a data collection form containing columns of performance achievement carried out by BNN, BNNP and related agencies.	 Deputy of Eradication Deputy of Community Empowerment Deputy of Prevention Deputy of Rehabilitation Bureau of Human Resources and Principle Secretariat Organization General Bureau of the Principle Secretariat Provincial National Narcotics Board

2. Method of Index Calculation and Data Imputation

Table 1.10. Method of Index Calculation and Data Imputation

No.	Method of Index Calculation	Data Imputation
1.	The study on the preparation of the P4GN index adopted the formulation of the composite index described in the guidebook for index preparation published by the OECD entitled Handbook on Constructing Indicators Methodology and User Guide of the year 2008. This guidebook for preparing the index is used by every country in producing an index for official statistics. The calculation of the P4GN index is carried out according to the steps described in the manual, except for the data input.	The data used in the preparation of the P4GN index come from the BNN work unit. The collected data does not contain a <i>missing value</i> , and if the value is not available, it is the true condition in the field, so the imputation process is not carried out in this study.

3. Recommendations on the Study Results Related to P4GN Index

Table 1.11. Recommendation on the Study Results

No.	Recommendation on the Study Results	Remarks
1.	A consistent and integrated data system must be a top priority to support the speed of policy analysis	
2.	The selected indicators must be maintained for the availability of data in the future continuation of index preparation in order to measure success.	
3.	Performance of each indicator should be further improved, for example in the variable of asset confiscation that has the lowest score per indicator.	
4.	The need for an alternative quality of each dimension by adjusting priority policies	
5.	The need for success indicators or targets for each activity that can be used as a reference for the score of the index compilers

6. Recommendations Issued by BNN for Non-Pharmaceutical Precursors

No.	Company	Application	Precursor	Import/Export
1.	PT. AIK Moh	SPI(Import)	Acetone	40 Ton
	Chemical Indonesia		Toluene	14.5 Ton
			MEK	5 Ton
			Hydrochloric Acid	16 Ton
2.	PT. Nabelin Indonesia	IT Application	IT Application	IT Application
3.	PT. Merck Chemical	SPI	Anhydride Acetate	1,000 Liter
	And Life Science		Acetone	30,000 Liter 250 Kg
			Antranilat Acid	5 Kg
			Dietil Ether	30,000 Liter
			MEK	500 Liter
				350 Kg
			Hydrochloric Acid	90,000 Liter
				300 Kg
				3,500 Ampul
			Fenilasetat Acid	100 Liter
				200 Kg
			Piperonal	350 Kg
			Piperidine	20 Liter
				351 Kg
			Potassium Permanganate	200 Liter
			U.S. S.	700 Kg
				300 Ampu
			Sulphuric Acid	75,000 Liter
				120 Kg
				900 Ampu
			Toluena	15,000 Liter
4.	PT. Prochem	SPI	Hydrocloric Acid	115,551 Kg
	Tritama		Acetone	26,510 Kg
			MEK	1,112 Kg
5.	PT. Rukun Persada Makmur	SPI	Potassium Permanganate	45,000 Kg
6.	PT. EDF	SPI	MEK	3,000 Liter
7.	PT. Smelting Indonesia	PEN	Sulphuric Acid	25,000 MT
8.	PT. Karunia Jasindo	SPI	Toluene	6,544 Liter
			Hydrochloric Acid	775 Liter
			Sulphuric Acid	775 Liter
			Methyl Ethyl Ketone	800 Liter
			Pseudoephedrine Hydrocloride	1,750 Liter
			Ephedrine Sulfate	2,500 Mg
			Acetone	1,200 Liter
			Acetic Anhydride	400 Liter
			Ethyl Ether Anhydrous/ Diethyl Ether	800 Liter
			Phenylpropanolamine Hydrochoride	1,000 Mg
9.	PT. Indochemical	SPI	Toluene	50,000 MT
	Citra Kimia		Acetone	10,000 MT
			MEK	21,000 MT
10.	PT. Indofa Utama Multicore	IT Extension	IT Extension	IT Extension
11.	PT. Rukun Persada Makmur	SPI	Heliotropine 99% MIN	500 Kg
12.	PT. Halim Sakti Pratama	SPI	Potassium Permanganate BP 2000	22.5 MT

Table 3.56. Total Recommendations issued by BNN for Nor	-Pharmaceutical Precursors
---	----------------------------

No.	Company	Application	Precursor	Import/Export
13.	PT. Nagase Impor Ekspor Indonesia	SPI	Hydrocloric Acid 36%	1,600 Kg
14.	PT. Sari Sarana	SPI	Toluene	6,000 MT

- 2. SPE
- 3. PEN : Pre Eksport Notification
- 4. IT Appointment : Recommendation for Appointment as Registered Improter of Non-Pharmaceutical Precursors

5. IT Appointment Extension

: Recommendation for Extension as Registered Importer of Non-Pharmaceutical Precursos

NEW PSYCHOACTIVE SUBSTANCES

Talel 4.1. List of NPS and their Derivatives Circulating in Indonesia

No.	Name of Chemical Substance (Lupac)	Effect	General Name	Type of Substance
Regula	ated and put in the Attachment of Ministe	r of Health Regulation No	. 4 and No. 2 of the	year 2020
1.	2-methylamino-1-(3,4- methylenedioxyphenyl)propan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	Methylone (MDMC)	Derivative Cathinone
2.	(RS)-2-methylamino-1-(4- methylpenhyl)propan-1-one	Stimulant, haluci- nongen, insomnia and sympathomimetic	Mephedrone (4- MMC)	Derivative of Cathinone
3.	(±)-1-phenyl-2-(methylamino)pentan- 1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	Pentedrone	Derivative of Cathinone
4.	(RS)-2-ethylamino-1-(4- methylphenyl)propan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	4-MEC	Derivative of Cathinone
5.	(RS)-1-(benzo[d][1,3]dioxol-5-yl)-2- (pyrrolidin-1-yl)pentan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	MDPV	Derivative of Cathinone
6.	(RS)-2-ethylamino-1-phenyl-propan-1- one	Stimulant, haluci- nogen, insomnia and sympathomimetic	Ethcathinone (N- ethylcathinone)	Derivative of Cathinone
7.	(RS)-1-(4-methylphenyl)-2-(1- pyrrolidinyl)-1-hexanone	Stimulant, haluci- nogen, insomnia and sympathomimetic	МРНР	Derivative of Cathinone
8.	(1-pentyl-1H-indol-3-yl)-1- naphthalenyl-methanone	Halucinogen, effect from cannabinoid and toxic	JWH-018	Synthetic Cannabinoid
9.	(1-(5-fluoropentyl)-1H-indol-3- yl)2,2,3,3-tetramethylcyclopropyl)- methanone	Halucinogen, effect from cannabinoid and toxic	XLR-11	Synthetic Cannabinoid
10.	N,N-2-dimethyl-1-phenylpropan-2- amine	Stimulant, empathogenic	DMA (Dimethyl- amphetamine)	Derivative of Phenethylamine
11.	5-(2-aminopropyl)benzofuran	Stimulant, empathogenic	5-APB	Derivative of Phenethylamine
12.	6-(2-aminopropyl)benzofuran	Stimulant, empathogenic	6-APB	Derivative of Phenethylamine
13.	1-(4-methoxyphenyl)-N-methyl- propan-2-amine	Stimulant, empathogenic	PMMA	Derivative of Phenethylamine
14.	2-(4-Bromo-2,5- dimethoxyphenyl)ethanamine	Stimulant, empathogenic	2С-В	Derivative of Phenethylamine
15.	1-(4-chloro-2,5-dimethoxy- phenyl)propan-2-amine	Stimulant, empathogenic	DOC	Derivative of Phenethylamine
16.	2-(4-lodo-2,5-dimethoxyphenyl)-N-[(2- methoxypehyl)methyl]ethanamine	Stimulant, empathogenic	25I-NBOMe	Derivative of Phenethylamine
17.	2-(4-Bromo-2,5-dimethoxyphenyl)-N- [(2-methoxypehyl)methyl]ethanamine	Stimulant, empathogenic	25B-NBOMe	Derivative of Phenethylamine
18.	2-(4-Chloro-2,5-dimethoxyphenyl)-N- [(2-methoxypehyl)methyl]ethanamine	Stimulant, empathogenic	25C-NBOMe	Derivative of Phenethylamine
19.	Catha edulis mengandung cathinone dan cathine	Stimulant, halucinogen, insomnia and sympathomimetic	Khat Plant contains Cathinone and Cathine	Cathinone and cathine
20.	5-fluoro AKB48	Halucinogen, effect from cannabinoid and toxic	5-fluoro AKB 48	Synthetic Cannabinoid
21.	MAM 2201	Halucinogen, effect ofcannabinoid and toxic	MAM 2201	Synthetic Cannabinoid
22.	1-benzofuran-4-yl-propan-2-amine	Stimulant, empathogenic	4 APB	Derivative of Phenethylamine
23.	1-Benzylpiperazine	Euphoria, increase of heart rate, dilatation pupil & toxic	BZP	Derivative of Piperazine

No.	Name of Chemical Substance (Lupac)	Effect	General Name	Type of Substance
24.	1-(3-Chlorophenyl)piperazine	Euphoria, increase of heart rate, dilatation of pupil & toxic	mCPP	Derivative of Piperazine
25.	1-(3-Trifluoromethylphenyl)piperazine	Euphoria, increase of heart rate, dilatation of pupil, and Toxic	TFMPP	Derivative of Piperazine
26.	2-(1H-indol-3-yl)-1-methyl-ethylamine	Euphoria, empathy, psychedelic, stimulant, and anxiety	α-MT	Derivative of Tryptamine
27.	3,4-Methylenedioxy-N-ethylchatinone	Stimulant, haluci- nogen, insomnia and sympathomimetic	Ethylone (bk- MDEA, MDEC)	Derivative of Cathinone
28.	4-methyl buphedrone	Stimulant, haluci- nogen, insomnia and sympathomimetic	Buphedrone	Derivative of Cathinone
29.	5-methoxy N,N- methylisopropyltryptamine	Euphoria, empathy, psychedelic, stimulant, and anxiety	5-MeO-MiPT	Derivative of Tryptamine
30.	(1-(4-fluorobenzyl)-1H-indol-3-yl) (2,2,3,3-tetramethylcyclopropyl) methanone	Halucinogen, effect of cannabinoid and toxic	FUB-144	Synthetic Cannabinoid
31.	N-[(1S)-1-(aminocarbonyl)-2- methylpropyl)]-1-(cyclohexylmethyl)- 1H-indazole-3-carboxamide	Halucinogen, effect of cannabinoid and toxic	AB-CHMINACA	Synthetic Cannabinoid
32.	N-[(1S)-1-(aminocarbonyl)-2- methylpropyl]-1-[(4- fluorophenyl)methyl]-1H-indazole-3- carboxamide	Halucinogen, effect of cannabinoid and toxic	AB-FUBINACA	Synthetic Cannabinoid
33.	Naphthalen-1-yl-(-4- pentyloxynaphthalen-1-yl) methanone	Halucinogen, effect of cannabinoid and toxic	CB 13	Synthetic Cannabinoid
34.	1-(4-Chlorophenyl)-2- (methylamino)propan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	4-chloro metchatinone	Derivative of Cathinone
35.	Methyl 2-({1-[(4-fluorophenyl)methyl]- 1H-indazole-3-carbonyl}amino)-3- methylbutanoate	Halucinogen, effect of cannabinoid and toxic	FUB-AMB	Synthetic Cannabinoid
36.	N-(1-amino-3-methyl-1-oxobutan-2-yl)- 1-pentyl-1H-indazole-3-carboxamide	Halucinogen, effect of cannabinoid and toxic	AB-PINACA	Synthetic Cannabinoid
37.	[1-(5-fluoropentyl)-1H-indazol-3- yl](naphthalen-1-yl)methanone	Halucinogen, effect of cannabinoid and toxic	THJ-2201	Synthetic Cannabinoid
38.	1-naphthalenyl(1-pentyl-1H-indazol-3- yl)-methanone	Halucinogen, efek cannabinoid dan toxic	THJ-018	Synthetic Cannabinoid
39.	N-(1-Amino-3,3-dimethyl-1-oxobutan- 2-yl)-1-(4-fluorobenzyl)-1H-indazole-3- carboxamide	Halucinogen, effect of cannabinoid and toxic	ADB-FUBINACA	Synthetic Cannabinoid
40.	N-(1-amino-3,3-dimethyl-1-oxobutan- 2-yl)-1-(cyclohexylmethyl)-1H-indazole- 3-carboxamide	Halucinogen, effect of cannabinoid and toxic	ADB-CHMINACA	Synthetic Cannabinoid
41.	Methyl 2-{[1-(cyclohexylmethyl)-1H- indol-3-yl]formamido}-3,3- dimethylbutanoate	Halucinogen, effect of cannabinoid and toxic	MDMB-CHMICA	Synthetic Cannabinoid
42.	Methyl (S)-2-[1-(5-fluoropentyl)-1H- indazole-3-carboxamido]-3,3- dimethylbutanoate	Halucinogen, effect of cannabinoid and toxic	5 - Fluoro ADB	Synthetic Cannabinoid
43.	(RS)2-(3-methoxyphenyl)-2- (ethylamino)cyclohexanone	Stimulatn, haluci- nogen, insomnia and sympathomimetic	Methoxetamin	Derivative of Ketamin
44.	(±)-1-(4-methylphenyl)-2- (benzylamino)propan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	Benzedron	Derivative of Cathinone
45.	3-Methoxy-2-(methylamino)-1-(4- methylphenyl)propan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	MEXEDRON	Derivative of Cathinone

No.	Name of Chemical Substance (Lupac)	Effect	General Name	Type of Substance
46.	1-(1,3-benzodioxol-5-yl)-2- (methylamino)pentan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	PENTYLONE	Derivative of Cathinone
47.	1-(2H-1,3-benzodioxol-5-yl)-2- (ethylamino)pentan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	N-ETHYLPENTY- LONE	Derivative of Cathinone
48.	(1-Butyl-1H-indol-3-yl)(naphthalen-1- yl)methanone	Halucinogen, effect of cannabinoid and toxic	JWH-073	Synthetic Cannabinoid
49.	(4-methylnaphthalen-1-yl)(1-pentyl- 1H-indol-3-yl)methanone	Halucinogen, effect of cannabinoid and toxic	JWH-122	Synthetic Cannabinoid
50.	2-(4-iodo-2,5- dimethoxyphenyl)ethanamine	Stimulant, empathogenic	2C-I	Derivative of Phenethylamine
51.	1-(4-chlorophenyl)-2- (ethylamino)propan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	4-Chloro- ethcathinone	Derivative of Cathinone
52.	N-(Adamantan-1-il)-1-(5-kloropentil)- 1H-Indazol-3-karboksamida	Halucinogen, effect of cannabinoid and toxic	5-Chloro AKB 48	Synthetic Cannabinoid
53.	methylN-{[1-(5-fluoropentyl)-1H- indazol-3-yl]carbonyl}valinate	Halucinogen, efek cannabinoid dan toxic	5-Fluoro-AMB	Synthetic Cannabinoid
54.	Naphthalen-1-yl 1-(5-fluoropentyl)-1H- indole-3-carboxylate	Halucinogen, effect of cannabinoid and toxic	SDB-005	Synthetic Cannabinoid
55.	N-(1-amino-3,3-dimethyl-1-oxobutan- 2-yl)-1-(5-fluoropentyl)-1H-indole-3- carboxamide	Halucinogen, effect of cannabinoid and toxic	5-Fluoro-ADBICA	Synthetic Cannabinoid
56.	ethyl (1-(4-fluorobenzyl)-1H-indazole- 3-carbonyl)valinate	Halucinogen, effect of cannabinoid and toxic	EMB-Fubinaca	Synthetic Cannabinoid
57.	N-ethyl-1-(4-methoxyphenyl)propan-2- amine	Stimulant, empathogenic	PMEA	Derivative of Phenetylamine
58.	Methyl N-[1-(cyclohexylmethyl)-1H- indole-3-carbonyl]valinate	Stimulant, empathogenic	MMB-CHMICA	Derivative of Phenetylamine
59.	2-(4-Chloro-2,5- dimethoxyphenyl)ethanamine	Stimulant, empathogenic	2C-C	Derivative of Phenetylamine
60.	2-(2,5-dimethoxyphenyl)ethanamine	Stimulant, empathogenic	2С-Н	Derivative of Phenetylamine
61.	Mimosa Tenuiflora	Halucinogen, efek cannabinoid dan toxic	Mengandung DMT	Plant Based Substance
62.	Ayahuasca (Banisteriopsis Caapi dan Psychotria viridis)	Halucinogen, effect ofcannabinoid and toxic	Mengandung DMT	Plant Based Substance
63.	1-(4-chlorophenyl)-2-(pyrrolidin-1- yl)pentan-1-one	Stimulant, haluci- nogen, insomnia and Sympathomimetic	4-Chloro-Alpha- PVP	Derivative of Cathinone
64.	α-ethylaminocaprophenone, N- ethylnorhexedrone, hexen and NEH	Stimulant, haluci- nogen, insomnia and sympathomimetic	N- Ethylhexedrone	Derivative of Cathinone
65.	Naphthalen-1-yl 1-[(4- fluorophenyl)methyl]-1H-indole-3- carboxylate	Halusinogen, effect of cannabinoid and toxic	FDU-PB-22	Synthetic Cannabinoid
66.	1-[1-(2-methoxyphenyl)-2- phenylethyl]piperidine	Stimulant, haluci- nongen, insomnia and sympathomimetic	Methoxpheni- dine	Pencyclidine type substances
67.	1-(1,3-Benzodioxol-5-yl)-2- (ethylamino)butan-1-one	Stimulant, haluci- nongen, insomnia and sympathomimetic	Eutylone	Derivative of Cathinone
68.	1-(2H-1,3-benzodioxol-5-yl)-2- (dimethylamino)butan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	bk-DMBDB / Dibutylone	Derivative of Cathinone
69.	1-(1,3-benzodioxol-5-yl)-2- (benzylamino)propan-1-one	Stimulant, haluci- nogen, insomnia and sympathomimetic	3,4-Methyle- nedioxy-N- benzylcathinone	Synthetic Cathinone
70.	Methyl 2-[[1-5-Fluoropentyl) indole-3- carbonyl] amino]-3,3- dimethyl- butanoate	Halusinogen, effect of cannabinoid and toxic	5-Fluoro-MDMB- PICA	Synthetic Cannabinoid

No.	Name of Chemical Substance (Lupac)	Effect	General Name	Type of Substance
71.	1-(4-cyanobutyl)-N-(1-methyl-1- phenylethyl)-1H-indazole-3- carboxamide	Halucinogen, effect of cannabinoid and toxic	4-cyano CUMYL- BUTINACA	Synthetic Cannabinoid
72.	Methyl (2S)-2-{[1-(4- fluorobutyl)-1H- indazole-3- carbonyl]amino}-3,3- dimethylbutanoate)	Halucinogen, effect of cannabinoid dandtoxic	4-Fluoro-MDMB- BINACA	Synthetic Cannabinoid
73.	methyl (S)-3,3-dimethyl-2-(1-(pent-4- en-1-yl)-1H-indazole-3- carboxamido)butanoate	Halucinogen, effect of cannabinoid and toxic	MDMB-4en- PINACA	Synthetic Cannabinoid
74.	2-(2-Fluorophenyl)-2- (methylamino)cyclohexan-1-one	Disosiatifve Effect (halusinogen)	2-Fluoro- deschloroketami ne	Ketamine & PCP- type substances
75.	1-(4-fluorophenyl)-2- (methylamino)pentan-1-one, monohydrochloride	Halucinogen, effect of cannabinoid dan toxic	4-Fluoro- Pentedrone	Synthetic Cannabinoid
Not Ye	t Regulated in the Attachement of Ministr	y of Health RI Regulation		
76.	Mitragyna speciosa mengandung mitragynine dan speciogynine	Halucinogen, effect of cannabinoid and toxic	Kratom contains mitragynine and speciogynine	Pland-based, plant- based powder
77.	1-phenyl-2-(propylamino)-1-pentanone	Stimulant, haluci- nogen, insomnia and sympathomimetic	Alpha- Prophylaminope ntiophenone	Derivative of Cathinone
78.	2-(2-chlorophenyl)2- (methylamino)cyclohexan-1-one	Stimulant, haluci- nogen, insomnia dan sympathomimetic	Ketamin	Ketamin
79.	methyl (S)-2-(1-(4-fluorobutyl)-1H- indole-3-carboxamido)-3,3- dimethylbutanoate	Halucinogen, effect of cannabinoid and toxic	4-Fluoro-MDMB- BUTICA/4- Fluoro-MDMB- BICA	Synthetic Cannabinoid
80.	ethyl (1-(5-fluoropentyl)-1H-indole-3- carbonyl)-L-valinate	Halucinogen, effect of cannabinoid and toxic	5-Fluoro-EMB- PICA	Synthetic Cannabinoid
81.	methyl (S)-2-(1-(4-fluorobutyl)-1H- indazole-3-carboxamido)-3,3- dimethylbutanoate	Halucinogen, effect of cannabinoid dan toxic	4-Fluoro- ABUTINACA/ N- (4-Fluorobutyl) APINACA	Synthetic Cannabinoid
82.	ethyl (S)-2-(1-(5-fluoropentyl)-1H- indole-3-carboxamido)-3,3- dimethylbutanoate	Halucinogen, effect of cannabinoid and toxic	5-Fluoro-EDMB- PICA	Synthetic Cannabinoid
83.	1-(2,5-Dimethoxy-4-ethylphenyl)-2- aminoethane	Stimulant, empathogenic	2-CE	Derivative of Phenetylamine
